# Risk Management Videos

The following safety and risk management videotapes are available to associations and groups that recommend Federated's insurance programs. One copy is available at no cost for associations to use as a safety resource for members. Federated's field services risk consultants and marketing representatives also have access to these videos and can help individual clients with requests for showing them. Supplemental handout material is available through Federated's marketing representatives or field services risk consultants.

The field services risk consultant may present other videos and material on specific subjects not listed here.

Title of Video	Description	Type of Bus.	Time
