WITH AN
IEC OF GREATER
ST. LOUIS ELECTRICAL
APPRENTICESHIP

What is IEC?

IEC is a trade association that has been providing electrical training for more than 60 years to over 3,000 member contractors across the nation. Over 13,000 people are in IEC's training programs in over 50 training centers throughout the United States. IEC of Greater St. Louis is recognized by the U.S Department of Labor, Office of Apprenticeship.

Are you ready for a career, not just a job?

WHY ELECTRICAL

A career in the electrical industry is one of the most in-demand professions in America. Becoming an electrical professional gives you the opportunity to work with your hands, encounter versatile and challenging tasks, and enjoy high compensation with job security.

With a growing shortage of qualified electrical workers, there has never been a better time to join the highly-skilled electrical industry. There are plenty of job opportunities available in this high-demand field. Additionally, being an electrician is one of the most diverse work environments. Types of projects include:

- Residential Construction
- Commercial Construction
- Industrial Construction
- And Much More

BENEFITS

Graduates will be registered as journeyman electricians both by IEC and Office of Apprenticeship. Graduates will also receive 46 college credit hours.

VA BENEFITS

The IEC is certified by Veterans Affairs for veterans to receive their VA benefits. Also, the electrical apprenticeship program is registered with the American Council on Education. Graduates can apply for college credits upon successful completion of the program.

About the program

ENTRY MATH EXAM

The skills assessed are at the high-school level and include computation with fractions and decimals, algebra, geometry, and measurement.

ACADEMICS

A 78% passing grade each year must be maintained to continue to the next year of classroom training.

EMPLOYMENT

IEC does not guarantee employment. However, IEC staff will make every effort to assist with employment with an IEC contractor (over 80 in the St. Louis area).
